We Can't Measure What We Prevent!

Homecoming: Back to the Basics

When Dr. Todd Frisch set out to create a product that would help his wife shed that stubborn menopausal weight gain, little did he know he would witness miracles happening right before his eyes. Patient after patient began healing from the inside out like never before. Blood sugar, blood pressure and lipid numbers were plummeting. Digestive difficulties were improving. Fatigue, as well as aches and pains were disappearing. Auto-immune challenges and mental clarity were showing improvement, as well as a long list of random health complaints. With his 42 years of clinical experience, Dr. Todd and colleagues will share their knowledge and expertise with passion and determination that you will leave this event fired up and ready to grow your practice. Each will share how SHAPE is the starting point in helping their patients heal from the inside-out. Make this weekend a turning point in your career and change your patients/clients health forever!

SPEAKERS

Dr. Todd Frisch, Founder and Developer of SHAPE ReClaimed and Co-author of WTF? Why the Face: A Practical Guide to Understanding Health & Personality Through Facial Diagnosis. As a chiropractor for 37+ years, Dr. Todd Frisch specialized in restorative medicine, nutrition, homeopathy, kinesiology, acupuncture, iridology, Traditional Chinese Medicine (TCM) and facial diagnosis. Since retiring from private practice in 2017, he continues his mission to Transform Healthcare: One Patient at a Time by teaching like-minded practitioners how to gather the diagnostic puzzle pieces that make up the unique health picture of each individual and find that missing piece to heal patients from the inside out.

Dr. Beth Bartlett From an early age, Dr. Beth knew she wanted to be a doctor. After 8 years of chiropractic, and as a lifelong learner, Dr. Beth completed her functional medicine certification through the Institute for Functional Medicine in April 2019, with the best Functional Medicine education available. IFM Certified Practitioners are recognized as the most thoroughly trained and tested Functional Medicine clinicians in their fields. Practicing for 22 years, and a SHAPE practitioner since 2013, Dr. Beth believes each patient has a story to tell and so does their body. She loves figuring out what is blocking her patients from living their best, healthiest life and leans on SHAPE to address and turn around these roadblocks.

Dr. Heather Elton Practicing chiropractic and acupuncture since 1999, she received her Board-Certified Diplomate in Clinical Nutrition in January of 2012 and is currently working toward her second board certification through the Institute of Functional Medicine. Dr. Heather started using SHAPE in 2013. Her passion is working with patients who suffer from autoimmune

disorders, gastrointestinal disorders, obesity, hormonal disorders, chronic fatigue, infertility, fibromyalgia and more and believes SHAPE is extremely instrumental in helping them overcome these health challenges.

Dr. Colton Kaminski When Dr. Colton started college he had the intent to become a nurse anesthetist, but during that time he had a paradigm shift in his concept of what it takes to be in good health. He realized that he didn't just want to take care of sick people that were in a health crisis, but he wanted to learn how to get people well and keep them well. Suddenly, the idea resonated with him to not just treat the symptoms, but to address the underlying cause as well. A SHAPE practitioner since 2014, Dr. Colton's philosophy is, "CREATING GOOD HEALTH IS MORE THAN SPINAL ADJUSTMENTS...IT'S ABOUT TREATING THE WHOLE PERSON" and SHAPE is all about treating the whole person.

Dr. Robert Cass Physica Energetics Founder/ Master Formulator/Alchemist, Manufacturer of SHAPE ReClaimed Drops and MOOD Balance. Dr. Cass's thirst for knowledge is simply unquenchable. He has gained a wealth of information and has integrated spirit and acumen from countless and brilliant North, South and Central American, European, Chinese, Tibetan, Ayurvedic science based and non-conventional medical practitioners and respectfully melded all he learned into his Physica Energetics' remedy line. Learning from these healing masters over the ages, he processed what he learned through his analytical brain and thankfully is passionate to share this data with all who will listen. He teaches One Central Principle: The human body emerging through heart and mind was designed to be an integral revelation of the Vital Force at this level of design and creation. As such, its capacity to heal and be healed is clearly a matter of restorative re-alignment with the central core of its Source. He is a master formulator, gifted lecturer and a true sage!
